

SPECTRAVET

SpectraVET Laser Therapy provides a highly-effective, well-tolerated, drug-and-side-effect-free method of treatment for fractures, tendon, ligament and muscle injuries, wounds, skin problems, arthritis and degenerative joint conditions, chronic and acute inflammation, and pain.

Whether your horse is actively competing, healing from a wound, rehabilitating from an injury, or just getting old, this revolutionary new approach will greatly improve performance, recovery, comfort and quality of life.

Widely researched and clinically proven, SpectraVET Laser Therapy is a safe and effective form of treatment for companion animals and animal athletes alike.
